The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/560,794	Applicant(s) TAKENAKA ET AL.	
	Examiner Raymond Covington	Art Unit 1625	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12 is indefinite in that it lacks an ending period and there is no ending bracket “}” to match the one recited in the third line above formula (3.1). Also, formula (4) is confusing in that it has no relation to the rest of claim 12.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Dearborn DN 48:13253 (1953) abstract and Ciba DN 57:75868 (1962) abstract.

Dearborn and Ciba both teach polysubstituted –oxy methylene epoxy polycyclic hydrocarbon compound corresponding to that recited in the claim. See, respectively RN 27610-47-5 and RN 98520-41-3.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dearborn DN 48:13253 (1953) abstract and Ciba DN 57:75868 (1962) abstract.

Dearborn and Ciba both teach polysubstituted –oxy methylene epoxy polycyclic hydrocarbon compound corresponding to that recited in the claim. See, respectively RN 27610-47-5 and RN 98520-41-3. As to the process of making, see the respective abstracts. The references differ in the polycyclic hydrocarbon compound. However to use somewhat different but otherwise analogous starting materials in an otherwise known process would have been obvious to one of ordinary skill in the art as the results a polysubstituted polycyclic hydrocarbon would not have been unexpected.

No claim is allowed.
